

Accessible Venice

Accessibility of areas

- Areas accessible by vaporetto
- Areas accessible by motoscafo, by "facilitated" bridge or platform lift
- Areas that are not accessible by means of public transport
- Public transport landing stages
- Bridge with platform lift
- Facilitated bridge
- WC Public toilets
- P Car parks

The historic centre of Venice comprises 121 islands linked by 435 bridges. Thanks to the public transport service around 70% of the city is accessible to the mobility impaired.

The green areas in the map can be reached by vaporetti which can transport up to 4 wheelchairs at a time; the light green areas can be reached by "motoscafi", smaller water-buses which can only transport one wheelchair at a time. To reach islands without accessible bridges (no platform lifts/stepped ramp) you will need to use public transport.
